Education

BSU (2023-now):

FAMCS, Applied Mathematics

(Mathematician-Programmer)

Languages

- Russian (native)
- Belarussian (native)
- English (B2)

Profile

Currently, I am a second-year student at Belarusian State University. My interest in exact sciences and the structuring and algorithmic representation of information has sparked my curiosity in the field of information technology and software development. In the near future, I plan to deepen my knowledge of the C++ programming language (Scott Meyers' "Effective and modern C++"), study frameworks for application development (Qt), work with databases, and more.

Hard skills

- C++ (intermediate)
- Java (novice)
- QT (novice)
- Assembler (novice)
- Multithreaded programming (novice)
- Algorithms and Data Structures (novice)
- Git (novice)
- Mathematics (Discrete Mathematics, Linear Algebra, Graph Theory)

Soft skills

- Responsibility
- Advanced logical thinking
- Tenacity and patience
- Attention to detail
- Communication skills

Courses and projects

- Git course from Epam
- Summer Practice at BSU ([glebpetra/git-demo](#))
- Algorithms and Data Structures - educational course of FAMCS BSU ([iRunner 2](#))
